

Shelving Unit 112G

Unit offered has 5 shelves.

Intermetro

UFPC PART# E40600944

SHELVING UNIT,5-SHELF,METROSEAL II ,#PH112G, CONSISTS OF:
 4 74PK2 METROSEAL II POST
 5 2460NK2 SHELF,24X60,METROSEAL II

MetroSeal II Shelving

- Attractive, Corrosion-Resistant Finish: Developed by Metro to protect shelving against corrosive atmospheres found in walk-in coolers.
- 10-Year Limited Warranty against rust formation.
- Economical: Metroseal II products are more economical than stainless steel for use in atmospheres which tend to corrode metals.
- Super Erecta Shelf design: Provides fast, secure assembly of unit without the use of any special tools; shelf adjustability at 1" intervals along the entire length of the post; versatile construction that can change as easily as your needs changes; greater visibility of stored items and much more.
- Exclusive process: Metroseal II is manufactured using the latest state-of-the-art plating and coating processes. It incorporates a durable electro-plated metal base layer. This substrate, when coated with Metro's new proprietary epoxy coating will provide years of corrosion free service.
